SUSSEX COUNTY LUNATIC ASYLUM, HAYWARDS HEATH.

NINTH ANNUAL REPORT OF THE COMMITTEE OF VISITORS, 1867.

- Fo Her Majesty's Justices of the Peace for the County of Sussex, assembled in Quarter Sessions, held at Lewes, in and for the Eastern Division of the said County, on Monday, the thirtieth day of December, 1867; and at Petworth, in and for the Western Division of the said County, on Thursday, the second day of January, 1868.
- The COMMITTEE OF VISITORS OF THE SUSSEX COUNTY LUNATIC ASYLUM appointed at the Epiphany Sessions, 1867, REPORT:—

That all the new works and improvements at the Asylum Satisfactory Compared been completed for some months, and are now occupied Buildings.

by the Patients. They have been well and satisfactorily constructed; the works have all been paid for, and have been

completed within the amounts contemplated.

The improvement to the Asylum is very great, as well in the increased accommodation afforded in numbers, the increased comfort of the patients before accommodated, and the economical working of the establishment. Although the cost of provisions and articles of consumption has been very high, the Visitors have hitherto been able to keep the sum

charged for the maintenance of the patients at the same amount as before.

Continued in crease of the Asylum population.

The numbers in the house still continue to increase. The: are now 252 Males and 315 Females, being an addition of 12 Males and 12 Females since this time last year.

Purchase of two small plots of ground.

The purchases of the small plots of ground in front of th Asylum, mentioned in the Visitors' Report last year, have been completed, and the land has been conveyed to the Trustees for the County.

Resignation of the Chaplaincy by the

The Visitors regret that they have lost the services of the Rev. H. Hawkins. Rev. H. Hawkins, who has been the Chaplain of the Asylur from its first occupation. He has resigned on his being appointed Chaplain to the Asylum for the County of Mid dlesex, at Colney Hatch. The Visitors have secured the

Appointment of services of the Rev. Thomas Edward Crallan, formerl.
Crallan.

Curate of the parish of Newick in this county who has been curate of the parish of Newick, in this county, who has been appointed Chaplain, and has entered on his duties. The Visitors have learned with satisfaction that he appears to have made a very favourable impression, and has been received with great kindness by his congregation.

General condition of the Asylum.

The general condition of the Asylum is very good, the patients generally in good health, quiet, and orderly, and the Committee refer to the Report of DR. ROBERTSON, the Superintendent, which accompanies this Report, for the In addition, the Visitors have great pleasure if stating that the conduct of all the officers in the establish ment deserves most favourable notice.

> (Signed) EDWD. SMITH BIGG. Chairman of the Committee.

The Medical Superintendent cannot close this report of the Resignation of the Chaplain (Rev. H. history of the year 1867, without here recording his sense of Hawkins, M.A.) the untiring zeal and efficiency of the late Chaplain, the Rev. Henry Hawkins, M.A., and while rejoiced to think that so well merited preferment has fallen to him, he yet retains a lingering regret at the loss of a colleague with whom, since the opening of the Asylum, in 1859, he has continuously worked in unbroken harmony.

The Revd. Thomas Edward Crallan, M.A., Cantab., who Appointment of was appointed Chaplain by the Visitors at a special meeting Crallan, M.A. on the 8th of November, has performed the duties of his office He has already made a most favorable since the 1st inst. impression on the patients, and he has shewn a great desire to carry out the work of his office in accordance with the views and suggestions of the Medical Superintendent.

The Medical Superintendent continues to receive the most Dr. Williams. efficient and willing aid in the duties and government of the House from the Assistant Medical Officer, Dr. S. W. D. Williams, and whose services he would again desire to thus commend to the notice of the Visitors.

C. LOCKHART ROBERTSON, (Signed)

Medical Superintendent.

Haywards Heath, December 31st, 1867.

CORRESPONDENCE RELATIVE TO THE CASE OF WILLIAM HENRY REED.

Sussex Lunatic Asylum,
Haywards Heath,
November 3rd, 1867.

SIR,—I am desired by Dr. Robertson to inform you that an inquest will be held on the body of William Henry Reed, who was admitted from Bethnal Green on the 29th October, and died on the 2nd inst., at six a.m.

A post mortem examination this morning has shewn that the ninth rib

on the right side has recently been fractured.

I shall send you a telegram as soon as I learn the day and hour fixed by the coroner for East Sussex for this inquest.

I am, Sir,
Your obedient Servant,
S. A. MORTLOCK,
Clerk of the Asylum.

To Dr. Millar, Bethnal Green Asylum, London.

[Same letter sent to Mr. S. Thorncroft, Assistant Overseer, Brighton.]

Sussex Lunatic Asylum,
Haywards Heath,
November 5th, 1867.

SIR,—With reference to my certificate of death in the case of William Henry Reed, who died here on the 2nd instant, I beg now to add, for the information of the Commissioners in Lunacy, that the Coroner for East Sussex held an inquest here late last night, and that the jury found that William Henry Reed died from serous effusion on the brain.

East Sussex held an inquest here late last night, and that the jury found that William Henry Reed died from serous effusion on the brain.

They added to their verdict that he had an extensive bruise on his right arm, and a fractured rib on the right side. Mr. Jones, the Clerk to the Visitors, attended the inventor

to the Visitors, attended the inquest.

The medical evidence showed that death resulted from serous effection into the ventricles and membranes of the brain. There was apparently no connection between the fractured rib and the national's death

no connection between the fractured rib and the patient's death.

The annexed letter, from Dr. Millar, whom I invited to attend the inquest, explains the circumstances under which, probably, the rib was broken.

In addition, the post mortem examination revealed extensive disease of the spleen and kidneys; and the vessels of the brain and the muscular tissue of the heart alike presented, under the microscope, the character-

istic signs of fatty degeneration.

I shall be glad to furnish the Commissioners with any farther information they may desire. At the desire of the coroner the interment has been deferred till Thursday, the 7th, at three p.m.

I am, Sir,
Your obedient Servant,

C. L. ROBERTSON.

C. P. Phillips, Esq., Secretary to the Commissioners in Lunacy.

> Bethnal House, Cambridge Road, November 4th, 1867.

SIR, -I confess I am much surprised at the communication this morning from the Clerk of the Asylum, saying that W. H. Reed was dead. When he left here he appeared much in the same state of health as he had been in for the last two months. The fractured rib I, of course, knew nothing of, otherwise I would have objected to his removal. It appears that the evening before he was removed he had a scuffle with a fellow-patient in the Infirmary, and it is not unlikely that the rib was broken at the time he received the bruise on his arm On receiving your telegram as to the time of the inquest, I shall bring with me a patient who described the scuffle, and the attendant of the Infirmary.

I am,
Yours faithfully,
JNO.

MILLAR.

Dr. Robertson.

Sussex Lunatic Asylum, Haywards Heath, November 5th, 1867.

SIR,—I am desired by Dr. Robertson to acknowledge the receipt of your letter of yesterday, and in reply to express his regret that the short notice given by the coroner should have prevented you from attending the inquest, as you proposed. I sent a telegram, as I promised, the moment I received the coroner's intimation of the hour he had fixed.

The verdict of the jury was that "William Henry Reed died from Serous Effusion on the Brain;" they also say that he had an extensive bruise on his right arm, and a fractured rib on the right side.

I am, Sir,
Your obedient Servant,
S. A. MORTLOCK,
Clerk of the Clerk of the Asylum.

To Dr. Millar, Bethnal Green Asylum. Bethnal House, Cambridge Road, November 4th, 1867.

SIR,—Not expecting an inquest at so late an hour, I kept an invitation which prevented Mr. Mortlock's telegram reaching me before twenty minutes to seven—twenty minutes too late to enable me to catch the seven o'clock train; had I been at home I should have started to attend the inquest on Wm. H. Reed. As I presume the inquest is adjourned, I must now weit the summent of the coroner. I must now wait the summons of the coroner.

I called this morning at the office of the Commissioners in Lunacy, and

showed them Mr. Mortlock's letter, and our own Case Book referring to

the patient.

I am, Yours faithfully, JNO. MILLAR.

Dr. Robertson.

HE CHAPLAIN'S NINTH ANNUAL REPORT.

The Chaplain's Ninth Annual Report is respectfully sub-Ninth Annual Report.

Report.

At the suggestion of the Medical Superintendent, an sunday services. teration has recently been made in the hour of the second Litany Service. Instead of being held at noon it now gins almost immediately after the conclusion of the 10 a.m. forning Prayer. A longer interval before the dinner hour by this arrangement, secured for the patients country walk. oly Communion has been celebrated monthly, and on some secial occasions. The 8 p.m. monthly household service has ten regularly conducted, with a fair measure of success.

A greater number than formerly of patients has attended week downwest and services. Day services arrangements. On wet cornings, when the patients have not been permitted to leave building, the service has been omitted.

On Ash Wednesday, and on the Sunday afternoons during tent Services ent, clergymen from the neighbourhood officiated as preachers. is hoped that this variety in the conduct of the services

was acceptable to many of the congregation. The following are the names of the preachers:—

March 6-Rev. J. Foster, Incumbent of Wivelsfield;

" 10—Rev. E. Grindle, Curate of Cuckfield;

" 17—Rev. S. Greatheed, Curate of St. Wilfrid's;

,, 24—Rev. R. E. Wyatt, Incumbent of St Wilfrid's;

,, 31—Rev. H. Hollingworth, Curate of Cuckfield;

April 7—Rev. T. Astley Maberly, Vicar of Cuckfield;

" 14—Rev. J. Foster, Incumbent of Wivelsfield.

Extra services were held on Wednesdays (when the choistended) and Fridays. A daily evening service was hell during Holy Week.

Ascension Day.

On this festival there was an early celebration of the Holl Communion, with Evening Service at 5 p.m.

Commemoration Day, 25th July.

The services were at 8.30 and at 12. The Venerabile Edward Garbett, Archdeacon of Chichester, was the preacher on the occasion. The choir was led by Mr. Alfred White.

Funerals.

49 funerals have taken place during the year; 23 har been removed. The Chaplain has made it a practice to spear a few words to the mourners, and to present them with memorial card, filled up with the name of the decease This slight attention has, in many instances, afforded gratit cation.

Classes.

The male and female writing, and the female bible, class have been continued. The Commissioners, on the occasion their visit, made special reference to the classes.

Library.

No addition has been made to the permanent stock, but subscription has been renewed at Mudie's for the service the household.

The wards and infirmaries have been frequently visited. In wards. the female infirmary Holy Communion has been from time to time administered, to an invalided patient.

Several interesting meetings have taken place during the Missionary Meetyear. In February a missionary tea meeting was held, attended by nearly all the officers, and by a large number of the household. At a previous meeting the Rev. S. Greatheed delivered an address. In July the Rev. H. H. Wyatt, of Brighton, and the Rev. R. L. Pennall (who is about to join the African Mission under Bishop Tozer) attended; and in November the Rev. W. Jackson, of Heathfield, delivered an interesting lecture. A cheque for £8 13s. 2d. has been forwarded to the parent society.

The performance of the choir has been creditable, and the Choir. conductor of the harmonium has exerted himself to give as much efficiency as possible to the musical portion of the services.

The Chaplain cannot deny himself the gratification of FarewellMeeting, referring to the evening of November 23rd, when the officers and other members of the establishment assembled to take their farewell of him at a tea party, which had been convened by the Medical Superintendent. The friendly feeling elicited on that occasion will long be agreeably remembered.

In presenting, for the last time, his annual report of the discharge of his duties, the Chaplain welcomes this opportunity of tendering his best acknowledgments to the Visitors for the confidence which, during more than eight years, they have reposed in him. Deeply sensible of the defects of his ministrations, he is in a position to appreciate the indulgence which has been extended to his imperfect endeavours.

To the Medical Superintendent and other officers he desires to offer cordial thanks for their courtesy and co-operation. To the household in general he is under obligation for civilities experienced at their hands.

With every expression of respect the Chaplain takes leave of the Visitors and his colleagues in office, subscribing himself, for the last time.

Their faithful servant and Chaplain,

(Signed)

HENRY HAWKINS, M.A.

Haywards Heath, 31st December, 1867.

THE REPORT OF THE COMMISSIONERS IN LUNACY.

Sussex County Asylum,

June 7th, 1867.

Upon our visits yesterday and this day, we have inspected the Asylum in its several departments, and, with the exception of one of each sex, absent on leave, and one man who escaped on the 1st instant, and has been traced and sent for, have seen all the patients.

The changes in the patients since the last visit, May 4th, 1866, and their present numbers, are shown by the following tabular statement:—

M.		F.	Tota	al.
63	,	97 .	160	0
26	•••	38	64	4
20			58	3
39		4.4		
	_	0 =	W 4 =	
	63 26 20 39	63 26 20 39	63 97 26 38 20 23 39 44	63 97 166 26 38 64 20 23 53 39 44 88

We have satisfaction in being able to report most favourably, as heretofore, of the personal condition and demeanour of the patients of both sexes, who were well dressed, quiet, and orderly. Their general state is, we think, most creditable to the medical and other officers, and to the attendants more immediately responsible for their supervision and care.

The sanitary condition of the Asylum is good. We found not more than three or four patients of each sex in bed, and

the numbers registered under medical treatment are only 8 in the Male, and 9 in the Female Division. The instances of seclusion since the last visit have been very rare, all cases being carefully recorded.

The night attendance continues to be most satisfactory in its results. The latest Ward Returns showed only four or five wet beds nightly in the respective Divisions.

The patients attending Divine Service in the Chapel on Sundays average about 150 on the Male side, and 200 on the Female, and on week-days about two-thirds of those numbers.

The Schools for reading, writing, and elementary instruction continue to be conducted satisfactorily, under the direction of the Rev. Mr. Hawkins, the Chaplain, who takes an active interest in the spiritual welfare and mental improvement of the patients.

The Holy Communion is administered on the first Sunday in every month, and received by about twelve patients of each sex.

Upwards of 140 of the Male, and 190 of the Female Patients are usefully employed. Of the former, upwards of 40 work on the land, under the Gardener and out-door and farm attendants, and nearly 50 as artizans. Of the latter, nearly 100 are engaged in needle-work, and 40 in the laundry, wherein there are only three Laundry-maids.

The arrangements for Bathing are very good. For the purpose of cleanliness there is, in each Division, a general bath-room, containing four baths, and with dressing-rooms attached. Every patient is bathed regularly twice a week,

and each has fresh water. There are also baths in the several wards for medical purposes and special cases.

The body linen of all the patients is changed twice a week.

With the exception of 6 or 8 men, and from 20 to 25 women (sick, epileptic, or otherwise not in a fit state), all the patients dine and take their meals in the general Halls, which have been brought into use within the last three months, and will accommodate each 350 patients.

The new Male Wing, for 130 patients, will be ready for occupation in about a month from this date.

Gas is now procured from a company, and the old gas works are about to be converted into a smith's shep. This will afford an opportunity for materially enlarging the airing ground of the Male patients of the worst class, an improvement much required, and which, we trust, will be carried out.

We found all the wards and rooms, beds and bedding, clean, in the best order, well furnished, and comfortable, and cheerful in aspect. In all respects we have been gratified by our visit.

Dr. Robertson is ably assisted in his duties and keeping the Medical Records by Dr. Williams, late of the Northampton Asylum.

(Signed)

R. W. S. LUTWIDGE, Commissioners ROBERT NAIRNE, in Lunacy.

APPENDIX

TO THE

MEDICAL SUPERINTENDENT'S

NINTH ANNUAL REPORT,

CONTAINING

TABLES ILLUSTRATING THE MEDICAL, DOMESTIC, AND FINANCIAL RESULTS OF THE YEAR 1867.

The Medical Superintendent desires to acknowledge the services rendered to him by the Steward and Clerk of the Asylum (Mr. Mortlock) in the compilation of these Tables.

THE

MEDICAL SUPERINTENDENT'S

NINTH ANNUAL REPORT.

THE Medical Superintendent has the honour to submit his Report.

Ninth Annual Report to the Committee of Visitors.

On the 31st December, 1866, the numbers in the Asylum Numbers on the 7 years 240 Male, 303 Female. Total 543.

The admissions during the year have been, Male 69, Admissions. Temale 93. Total, 162.

The discharges during the year have been, Male 22, Discharges. Temale 44. Total, 66.

The deaths during the same period have been, Male 35, Deaths. 'emale 37. Total, 72.

The mean population resident during the year has been, Mean Annual Population. [ale, 244, Female 312. Mean Average 556.

The numbers in the Asylum this day (31st December, Numbers thisday, 367) are Male 252, Female 315. Total, 567.

The several numerical results are summed up in the first Numerical results of the year, and also since the opening of the Total Numerical Results, since the opening of the Asylum.

Sylum, will be found in Table II.

Annual per centages for 1867.

The Numerical Results of the year 1867 yield the following per centage:—

(a.) The Recoveries (including the cases Discharge Relieved) are 37.6 per cent. on the admissions of the year Excluding those cases Relieved, the per centage of Recoveries stands at Male 21.7, Female 29.0. Average, 25.9.

Mean Annual Mortality.

- (b.) The mean Annual Mortality is Male 14·3, Fema 11·8. Average, 12·9.
- (c.) Deducting the mortality of the year's admissions, i.e of those cases sent here simply to die, the mortality on the mean population resident would be Male 7.8, Female 6. Average, 6.8.

AsylumStatistics.

The Medico-Psychological Association have added seven new Tables to their series, and which have been introduced into the Appendix to this report. These Tables are not being generally adopted by the English County Asylums, a promise thus in the course of ten years to furnish a valual collection of statistics relative to the Insane Poor of English.

Sanitary condition of Asylum. The Sanitary condition of the Asylum throughout the yell has been good.

Inquests.

Two Inquests have been held during the year. (a.) Elizabe Stringer died suddenly on the morning of the 19th September An inquest was held and the jury returned a verdict of dear from hypertrophy of the heart and disease of the brain.

(b.) William Henry Reed, who had been transfer from Bethnal Green Asylum, on 29th October, died from the chronic disease of the brain and serous effusion into

entricles, on the 2nd November. The jury returned a verdict death from chronic disease of the brain with serous effusion. hey added that the ninth rib on the right side was fractured. he correspondence of the Medical Superintendent with the ommissioners in Lunacy and the Medical Officer of Bethnal reen Asylum, relative to this case, is subjoined to this port.

George Battman escaped from the gardener, on November Escapes. h, and not being re-taken, he was discharged at the end fourteen days, as required by statute. He was conlescent.

The Eighth Commemoration Day of the opening of the Commemoration Day, 1867. sylum was held on the 25th inst. The Annual Sermon as preached by the Venble. Archdeacon Garbett, M.A. e afternoon Mr. Basil Young gave his yearly entertain-This yearly feast day passed off most satisfacent. rily.

The alterations which have been in progress since 1864 are Enlargement of w completed, and the house has been enlarged from 450 ds to 710. These are nearly divided between the Male lid Female departments. This increased accommodation of 00 beds has been gained by adding a wing to the east and est extremity of the building, containing sleeping rooms thiefly dormitories) for 250 Patients, with the necessary ttendants and other rooms. The day room space for mese additional 250 patients has been obtained by converting le dining rooms of the twelve wards into sitting rooms, and building out to the north a dining hall, with offices for each repartment.

These halls measure 82ft. 6in., by 32ft. 10in, and contain New Dining Halls. \$542 superficial feet and 53,382 cubic feet, and are able to

seat 350 patients each. They have now been in use for ni months. All the meals of the house are served there and the success of the experiment has been most encouraging. N only are the meals served with greater facility and order, b the opportunity of fuller supervision on the part of the He Attendants leads to a better distribution of the food ar obviates waste. The Medical Superintendent feels it due these two officers to record the aid he has received from the in thus re-organising the work of the Asylum. It is not any time an easy matter to alter the established routine of large Asylum, or to overcome the prejudices of the Patients and Attendants of the house against new ways. average number of Patients absent from the hall at mea averages (including the sick and infirm) six on the male si and twenty on the female. To these Patients the meals: sent from the hall, and the plates, &c., are each time se back to the hall scullery to wash. Thus all the smell of for and confusion of cleaning of dishes and plates, have be removed from the twelve wards, to the manifest improveme of the quiet, order, and ventilation. On the other hand t Medical Superintendent must add that the hope he had using one of these halls for the weekly evening entertail ments has not been realised. The difficulties of moving tables after tea, and replacing them again for breakfast, a of bringing the Male Patients and their Attendants to Female wing, have proved so insurmountable that he I proposed making shift with the old recreation hall, ince veniently small as it is.

General Bath Rooms. The alterations and new buildings have further led to provision of a general bath-room for each wing, and accordance with a suggestion of the Visiting Commissione printed rules have been hung up, both there and in the way bath-rooms, for the guidance of the attendants. Each patient is twice weekly thoroughly washed in warm soap and water, and each patient has clean water and a clean towel for his separate use.

The following Tables show the new distribution of the Cubic and Superpatients in their new day-rooms, and in their bed-rooms. The average allowance of space for each patient is 50 superficial feet, and 550 cubic feet in the sleeping-rooms, and 35 superficial feet, and 450 cubic feet in the day rooms and dininghall, giving a total for each patient of 85 superficial feet and 1,000 cubic feet.

ficial Space.

These measurements accord with the scale laid down by the Commissioners in Lunacy in their paper of Suggestions and Instructions on the Building of Lunatic Asylums.

In the Report of the Committee appointed to consider the Cubic Space of Metropolitan Workhouses (presented to both Houses of Parliament by command of Her Majesty, 1867), a great deal of valuable information bearing on the cubic space In Workhouses and Hospitals will be found. The committee ecommend that 850 cubic feet be allotted to each sick inmate In the Metropolitan Workhouses, with a clear space of 6 feet cross each bed, and that when the ward is more than 12 feet high such additional height should not be taken into acmount in calculating the cubic space of 850 feet.

TABLE XVII.

ENGINEER'S SHOP.

Fitting new ½ in. ball cock and elbow to condensed water tank in

Making three bearing bars for large boiler flues

3 in. double clip, $1\frac{1}{4}$ in. hole drilled and screwed, and two $\frac{1}{2}$ in bolts and nuts for gas main

Copper hinge and 3 bolt to door of washing machine

Fitting and fixing 12 ft. ½ in. gas pipe, and pendant light, with ceiling plate, in old day room, No. 6, F. W.

Making six stop plates for windows to ditto

3 in. double clip, and two $\frac{1}{2}$ inch bolts and nuts

four brackets to fix shelves, two cramp hooks, and two meat ,, hooks for stores

two cramps, and cutting two castings for stoves

six striking plates for locks
Fitting two stoves for new buildings

Forging, fitting, and fixing hand rail and gate round hatch to cellar, new stores

Making four chimney bars, M. dining hall

Forging and fitting three sets of levers, and six 3 in. bolts and nuts for water closets new dining halls

Cutting and straightening seven \(\frac{7}{8} \) bars, and cutting and shutting seven 1 in. bars to same for windows in new cellar

Forging and fitting three stay brackets, and six $\frac{1}{2}$ in. bolts and nuts for gas pendants, F. dining hall

Fitting six stoves, and making twelve cramps, dining halls Taking out gas and water pipes in 3rd storey and M. infirmary

Making one ½ in. connecting pipe, and back rest for fire hydrant pipe NEW MALE DINING HALL—Fitting and fixing 150 ft. 1¼ in. pipe, four 1¼ in. tee pieces, one ¼ in. reduced socket, 204 ft. 1 in. pipe,

five 1 in. tee pieces, two 1 in. reduced elbows, two 1 in. bends, and one 1 in. Carter's stop valve. 12 ft. ½ in. pipe, 13 ft. of § in., and 24 ft. \(\frac{1}{4}\) in. Two \(\frac{1}{2}\) in. tee pieces, one \(\frac{1}{2}\) in. elbow, one 3 tee piece, one in and one in reduced sockets, one in. elbow, and one ½ in reduced tee piece. Three 6-lights starlights in hall, one 5 light ditto in attendants' room, one pendant light in carving-room, one ditto in scullery, one triangle light in corridor, and one bracket light in water closet for gas

Hot and cold water. Fitting and fixing 3 ft. 2 in. pipe, one 2 in. tee piece, and one $1\frac{1}{2}$ in. reduced socket. 63 ft. 1 in. pipe, one 1 in. connecting piece and nut, one $1\frac{1}{2}$ in. tee piece, one 1 in. Lambert's stop valve, one 1 in. gun metal stop cock Water closet. Fitting and fixing one 1 in. and one $\frac{3}{4}$ in. tee pieces, one $\frac{3}{4}$ reduced socket, 4 ft. $\frac{3}{4}$ in and 1 ft. $\frac{1}{2}$ in. pipe, One $\frac{1}{2}$ in. elbow, and one $\frac{1}{2}$ in. stop cock Urinal. Fitting and fixing one $\frac{3}{4}$ in. stop cock, 2 ft. $\frac{3}{4}$ in. pipe, one $1\frac{1}{2}$ in reduced socket. One synthen trap, one $1\frac{1}{2}$ in socket. ,,

93

99 one $1\frac{1}{2}$ in. reduced socket, one syphon trap, one $1\frac{1}{2}$ in. socket, one $1\frac{1}{2}$ in. elbow, and 2 ft. $1\frac{1}{2}$ in. pipe

Scullery sinks. Fitting and fixing two 2 in. zinc traps, 6 ft. 2 in pipe, and 22 ft. \(\frac{3}{4}\) in., four \(\frac{3}{4}\) in. elbows, eight nipple pieces (3 in.), eight \(\frac{3}{4}\) in. sockets, eight Lambert's \(\frac{3}{4}\) in. bib وو cocks, and two I in. tee pieces

NEW FEMALE DINING HALL-Fitting and fixing 155 ft. 14 in pipe eight 14 in. bends, two elbows, two tee pieces, and two reduced sockets, Two 1 in. connecting pieces, with back nuts in. pipe, seven 1 inch tee pieces, two 1 in. elbows, and two 1 in. pipe, seven I inch tee pieces, two I in. elbows, and two I in. bends. One I in. Carter's stop valve, 13 ft. $\frac{1}{2}$ in., 15 ft. $\frac{3}{8}$ in. and 20 ft. $\frac{1}{4}$ in. pipe. Three tee pieces, and one elbow, $\frac{1}{2}$ in. One tee piece, and one reduced socket, $\frac{3}{8}$ in. One $\frac{1}{2}$ in. socket, and one $\frac{1}{4}$ in elbow. Three 6-lights star lights, and eight I in. husks. One 5-light ditto, and ceiling plate in attendants' room. One 2-light pendant in carving-room. One ditto, with ceiling plate, in scullery. One triangle light, with ceiling plate, in corridor. One breeket light in water closet ceiling plate, in corridor. One bracket light in water closet for gas

Hot and cold water. Fitting and fixing 6 ft. 2 in. pipe, one 23 2 in. tee piece, one $1\frac{1}{2}$ in. reduced socket, 6 ft. $1\frac{1}{2}$ in., and 63 ft. 1 in. pipe. One 1 in. connecting piece, with back nut. One connecting piece and one tee piece, $1\frac{1}{2}$ in., one gun metal

stop cock, and one Lambert's stop valve, 1 in.

Water closets. One tee piece and one reducing socket, 1 in., one tee piece, one elbow, and two reducing socket, \(\frac{3}{4}\) in. Two ,, $\frac{1}{2}$ in. elbows, 2 ft. $\frac{1}{2}$ in. pipe, and two $\frac{1}{2}$ in. Lambert's stop cocks

Scullery sinks. Two 2 in traps, 6 ft. 2 in., 22 ft. 3 in. pipe, four $\frac{3}{4}$ in. elbows, eight nipple pieces (3 in.), eight $\frac{3}{4}$ in. sockets, eight \(\frac{3}{4}\) in. Lambert's bib cocks, and two 1 in. tee

pieces Cutting two 1 in. bars, 7 ft. long, for windows, M. hot water boiler room LAUNDRY GAS-Fitting and fixing 124 ft. 1 in pipe, two elbows, one tee piece, one connecting piece with back nut, 1 in., two 1 in. bends, and connecting to new main.

Fitting and fixing one new "Haden's patent' steam coil (3 in. cast iron) to M. hot water tank.

Making two cramps to carry 3 in. hot water pipe.

Chimney bar F dining hall.
Two hand rails M. hot water boiler room.

Fitting and fixing in day rooms, male wards, four 5-lights, star lights, four ceiling plates, 7 ft. 4 in. pipe, four tee pieces, four reducing sockets, two elbows, and two connection pieces, with back nuts, $\frac{3}{4}$ in.; 42 ft. $\frac{1}{2}$ in. pipe, 6 elbows, and four bends,

 $\frac{1}{2}$ in. Fitting and fixing in day rooms, male wards, five 3-lights star lights, five ceiling plates, 16 ft. 3/4 in. pipe, four tee pieces, and one elbow, \(\frac{3}{4} \) in., 60 ft. \(\frac{1}{2} \) in. pipe, four tees, one (lbow, one cap, and one bend, $\frac{1}{2}$ in.

Taking down eighteen bracket lights, and making eighteen iron-screwed

plugs, \frac{1}{4} in., for stopping gas mains.

Fitting and fixing gas in meat cellar, 40 ft. \(\frac{3}{4}\) in. pipe, four tee pieces, one connection piece, with back nut, and six hooks, \(\frac{3}{8}\) in., and three bracket lights.

Making blower for M. dining room stove, two brackets, and box plates. Lengthening three 1 in bolts for crane.

Fixing horse chaff cutting machine at farm, making four bolts, 3 ft. long, 1 in., and nuts, with four coulter holes, and gib keys, four $\frac{5}{8}$ in. bolts and nuts, 21 in. long, and two plates 4 ft and two plates 2 ft. long, with four $1\frac{1}{4}$ in. holes in each, and four cramps, 1 ft. long, with holes for $\frac{1}{2}$ in. bolts.

Fixing one 2 in high pressure stop valve, making one 2 in. connection piece, with back for fire hydrant, F. W.

Fixing iron crane, new store. Making eight ½ in. rings, seven 3 in. links, and four hooks for sling chains. Drilling two § in. holes, making one § in. bolt and nut, two 1 in. collars, 1 S. hook. Cutting and fixing chain to roller, making two brackets, and guide roller.

Making four sets of ironwork for water closets, new building, M.

Wrought iron cover to wheel of chaff machine.

Fixing sun light in F. dining hall, 50 ft. 1 in. pipe, one tee piece, one connecting piece, with back nut, one I in. stop cock, and making cowl to same.

Taking out, cleaning, repairing, and re-fixing steam coil, and 2 in.

valve, F.

80 ft. 2 in. pipe to hot water tank, F.

Cutting and lengthening tumbler shaft to horse root pulper at

Fitting and fixing four 3-lights star lights, in old dining room, F. wards, 80 ft. $\frac{1}{2}$ in. pipe, four tee pieces, two elbows, $\frac{1}{2}$ in., three $\frac{3}{4}$ in. tee pieces, three $\frac{3}{4}$ in reduced sockets, and one connecting piece, with back rut.

Making six brackets for hand rail, to steps No. 1 M.

New gate spring, four irons for side boards of carts, new roller frame and lift to mangle, triangle plate for table, cutting four bars to fix copper at cottages, new spring and head band, and two hooks for farm gate. "

NEW MALE WING (GAS)—Fitting and fixing 100 ft. 1 in., 70 ft. \(\frac{3}{4}\) in., 62 ft. \(\frac{3}{3}\) in., 121 ft. \(\frac{1}{2}\) in., and 46 ft. \(\frac{1}{4}\) in pipe, six \(\frac{3}{4}\) in. and three \(\frac{3}{8}\) in. reduced sockets; three 1 in., four \(\frac{3}{4}\) in, five \(\frac{1}{2}\) in., five \(\frac{3}{8}\) in. tee pieces; and 1\(\frac{3}{8}\) in. and six \(\frac{1}{4}\) in. elbows; 3 ft. 3 in

cast iron pipe, and syphon connected to main Fitting and fixing four baths with hot and cold water cocks, and waste valves and connections, 38 ft. 2 in., 69 ft. $1\frac{1}{2}$ in., and 48 ft. $1\frac{1}{4}$ in. pipe, two 2 in. elbows, three 2 in. tee pieces, one 2 in. reduced socket, four $1\frac{1}{2}$ in. elbows, six $1\frac{1}{2}$ in. tee pieces, eight $1\frac{1}{4}$ in. elbows, eight $1\frac{1}{4}$ in nipples, 7 ft. 1 in. pipe, one 2 in. high pressure stop valve, one $1\frac{1}{2}$ in., and one 1 in., F. new bath room.

Altering gas pipes and fitting new F. bath room, 48 ft. ½ in., 24 ft. ¼ in. pipe, four $\frac{1}{2}$ in. tee pieces, one $\frac{1}{2}$ in. connecting piece, four $\frac{1}{4}$

in. brass hose, cocks and burner pieces.

Fixing steam bath, F., with 2 ft. $\frac{3}{4}$ in., 13 ft. $\frac{1}{2}$ in. pipe, two $\frac{3}{4}$ in. round elbows, one $\frac{3}{4}$ in. reduced socket, and one $\frac{1}{2}$ in. steam valve.

Fitting new stove front, M. dining hall.

Making three plate hangers for new stoves in dining hall.

Five hydrants new building. M., fitting and fixing 55 ft. 2 in. pipe, four Five hydrants new building. M., fitting and fixing 55 ft. 2 in. pipe, four elbows, two tee pieces, two nipples, one reduced socket 2 in., 14 ft. 1½ in. pipe, one tee piece, and one reduced socket, 9 ft. 1 in. ripe, two elbows, and three fire cocks for hose.

Taking down, altering, and refitting and fixing gas and water pipes, and fixing grating over hot water pipe, No. 6, M. W.

Fitting and fixing 72 ft. 6 in. cast iron soil pipe, four tee pieces and two bends, and making ten double screwed straps and twenty ½ in. screwed nuts and plates, new building, M.

Fitting and fixing one new water-closet, and removing and re-fixing one with new inside pan and syphon trap, No. 6, M. W.

Fitting and fixing 40 ft. cast iron 2 in. stack pipe, and making four perforated plates to traps to take water off floors of lavatory and bath room, M. new building.

Making two stay bars 2 ft. 6 in., for man hole No. 6, M. airing court. one set of iron work for water closet, M., new building.

five iron cramps for new shed at farm.

iron band, two cramps, three stay hooks, and fixing iron smoke flue, new blacksmith's forge. 22

Fitting and fixing 39 ft. $1\frac{1}{4}$ in. pipe, one bend, six tee pieces, six sockets, and one high pressure stop valve, to supply No. 5, M. W., with cold water.

Drilling one $\frac{3}{4}$ in. hole in gas main, making two $\frac{3}{4}$ in. bends, and fixing 11 ft. $\frac{3}{4}$ in. pipe, and the connecting piece, to supply No.

6 Ward, M., with gas. Fitting four hot air register stoves, with cramps, chimney bars, &c.,

M., new building.

No. 5, M. WARD-Taking down, and refitting and fixing water supply to two water closets and one new pan.

Taking down old and fitting up new urinal.

Taking down old slate scullery sink and fixing new iron one, 2 ft. 2 in. waste pipe, 19 ft. 3 in. pipe, five elbows, one reduced socket, and two $\frac{3}{4}$ in. bib cocks, for hot and cold water.

Fitting and fixing one new bath with 6 ft. 1½ in. pipe and two elbows, 80 ft. 1 in. pipe, one connecting piece, two tee pieces, with cocks and waste valve for hot and cold water.

Fixing one large slop basin, with syphon, trap, and waste pipe. Fitting and fixing one 6-light starlight, with 4 ft. ½ in. pipe, one bend and elbows, one double clip and screws, in day room.

Fitting and fixing 63 ft. \(\frac{1}{4}\) in. pipe, twelve elbows and four swing bracket

lights, in bath room, scullery, and water closet.

No. 2 Storey Male New Building—Fitting and fixing two water closets, with 17 ft. 11/4 in. pipe, and one tee piece, 6 ft. 1 in. pipe, two tee pieces, and one reduced socket, and 4 ft. $\frac{1}{2}$ in. pipe, two elbows, and two stop cocks, with supply tanks, valves, &c.

Fitting and fixing lavatory, with one large slop basin and spyhon trap, 24 ft. iron pipe, one tee piece, and two bends; 44 ft. \(\frac{3}{4}\) in. pipe, two elbows, two bends, and two bib cocks, to supply hot Fixing seven swing bracket lights, with and cold water.

glass globes.
No. 3 Storey Male New Building—Fitting and fixing two water

closets, with 48 ft. 1 in. pipe, two elbows, and two stop cocks Fixing seven swing bracket gas lights.

Making one tie band, 20 lbs., to fix screwing post, and two 2 in. bolts and nuts, to fix vice and hood for forge, in smith's shop.

Cutting three bars for copper furnace, at farm.

NEW BATH ROOM, MALE-Fitting and fixing wrought iron tank, making one 1 in flange, drilling four $\frac{1}{2}$ in. holes, making four $\frac{1}{2}$ in. bolts and nuts, fixing one $\frac{3}{4}$ in. bend and cock, refitting 16 ft. 1 in pipe, one connecting piece, and refitting and fixing 20 ft. $\frac{3}{4}$ in pipe, and two bib cocks.

Fixing one 1 in. tee piece, 2 ft. 3 in. pipe, one elbow, and one bib cock.

Fitting and fixing one new bath, with two 1½ in. cocks, waste valve, and connections; 110 ft. 1 in. pipe, six bends, four elbows, and one tee piece; two 11/4 in. bends and reduced sockets, and one 14 in. gun metal stop cock, high pressure, to supply hot and cold water

NEW SHOE HOUSE SKYLIGHT-Making two bars and drilling and coun-

tersinking 24 holes.

Drilling and tapping two ½ in. holes, and fixing 20 ft. ½ in. pipe, two elbows, and two ¾ in. bib cocks, and altering two windows, new bath room, F. W.

Forging new guide rod and key for pumps at well.

Making seven stumps, 75 hooks, with 9 ft. chain, for vermin traps. Making three large iron stays, to fix partitions, new bathing room, F. W., New iron work to hand truck for garden.

Large dowals to fix stove, bracket and two plates to fix seats in chapel.

Fitting and fixing gas lights, with two \(\frac{3}{8}\) in. nose cocks and burners, one \(\frac{1}{2}\) in. tee piece, and 4 ft. \(\frac{1}{2}\) in. pipe, No. 5 A. M. W.

Water Closet at workshops, shoe house, and No. 6, M. Airing Court—
Fitting and fixing 60 ft 1 in. pipe, one bend, three tee pieces, and four reducing sockets; 40 ft. \(\frac{3}{4}\) in pipe, three bends, one tee piece, 5 elbows, and bib cocks.

tee piece, 5 elbows, and bib cocks.

Gas-Blacksmith's and Bricklayer's Shops, and Shoe House.—Fitting and fixing 70 ft ½ in pipe three bends, three tee pieces, three reducing sockets, and one connecting piece; 26 ft ¾ in. pipe, two bends, two tee pieces, and one reducing socket; 60 ft. ¼ in. pipe, three elbows, making three bends, and fixing three swing bracket lights, and one ½ in stop cock swing bracket lights, and one ½ in. stop cock.

Making twenty-four wedges, to fix lead to roof of water closet; two

lock plates and twelve striking plates.

MALE BATH ROOM—Dressing Room.—Fitting and fixing 18 ft. ½ in. pipe, four elbows and nipple, and one reducing socket; 13 ft. sin. pipe, one elbow, one bend, two sin. nose cock and

nipples, one ½ in. tee piece, and fixing gas light.

Hot water apparatus for heating No. 5 and 6 F. Wards.—Fitting and fixing 200 ft. 1 in. galvanized iron steam pipe, twelve round elbows, two bends, three connecting pieces, five 1 in. back nuts, two ¾ in. connecting pieces, with three back nuts; one 1 in gun metal valve, one condense box valve, one wrought iron covered tank, 4 ft. 6 in. by 3 ft. 6 in., by 2 ft., and 3 in. cast iron treble steam coil.

MEDICAL SUPERINTENDENT'S APARTMENTS-Fitting and fixing one cast iron sink, 50 ft. $\frac{3}{4}$ in. pipe, twelve elbows, two bit cocks and 10 ft. $1\frac{1}{2}$ in. pipe.

Making new corner irons for hand rail, and pin and chain for farm gate. Cutting off ten irons for new shed (bricklayer), and making 60 irons, 2 ft. long, for same

Making two iron caps to chimney pots

and fixing two iron stays to refrigerator 22

25 irons to hang ladder and tools on in new tool shed ,, two hooks for grate, and new standard for wire fence 2 2

22

,, large iron cramp for roof of tool shed

two blowers for stoves, M. W.

ATTENDANTS' ROOM, No. 5, M.—Fixing one bracket gas light with 17

ft ½ in pipe, and four elbows

Making one new end to guide rod, and twelve split keys for pump at well Cutting and fixing waste pipe to urinal at shoe house Making hand-rail for stoke-hole, 8 ft. long, at chapel

two long hooks, two bolts and plates, staples and fastenings for 3) barn doors

cramps and bars, and fitting stove in visiting room 23

twelve bolts and nuts, 2 ft. 6 in. long, and 24 plates and corner 22 irons for new dining tables

twenty-four ½ in. spike nails, and twelve plates, drilled and counter-sunk for padded room, No. 6, M.

Fitting and fixing 50 ft. of 2 in. wrought iron pipe and one connecting piece, with back nut, 40 ft. of $1\frac{1}{2}$ in., 200 ft. of 1 in., and 100 ft. of $\frac{3}{4}$ in pipe. Two 2 in. round elbows, four tee pieces, three reduced sockets, and three nipples. One $1\frac{1}{2}$ in reduced socket, four $1\frac{1}{2}$ in tee pieces, twenty-four 1 in. round elbows, twelve back nuts, eight tee pieces, and one high pressure stop cock. Twenty-four $\frac{3}{4}$ in. round elbows, and twelve back nuts. Six 2 in. rubber joints, and four condensed steam trap valves

FEMALE GENERAL BATHING ROOM—Fitting and fixing one hot water supply tank, 1 ft. 6 in. by 1 ft. One 1½ in ball valve, two 2 in. nuts and nipple, two bolts and nuts, one elbow and nipple, 3 ft. 2 in. pipe, and one reduced socket and two elbows

Making twenty-one bolts and nuts and 527 pipe hooks, stay nails, &c., &c., for repairs and alterations

ten steel scrapers for painter, four pairs smith's tongs, two hand hammers, two dung forks, four hand chisels, two long chisels hammers, &c. &c.

chisels, hammers, &c, &c.
Forging 114 steel horse shoes, and changing and shoeing farm horses, &c.
General repairs to engines, boilers, washing and laundry machinery, hot
water apparatus, tanks, steam and water cocks, and water
closets, &c., &c.

TABLE XVIII.

CARPENTER'S SHOP.

NEW CELLAR Stores—Making and fixing one flight of stairs, 15 treads, match boarded Two stollages for casks, 15 ft. by 2 ft, 4 ft. by 4 in., fixed on iron stands Making four centres, 7 ft by 4 ft 9 in, and 5 ft long Fitting and hanging one door. and 14 sashes Cutting out floor and joist for hatchway, 6 ft. by 2 ft 8 in., and making and hanging trap door to same. Making and fixing one set of 5 shelves, 12 ft 6 in. by 7 ft, 2 ft. 4 in. wide, grooved into end, with partitions 1½ in deal. One soap rack, 8 ft 6 in. by 7 ft, 3 ft. 6 in wide, three shelves, seven rails, each with uprights and bearers, 3 ft by 2½ in., deal. One cheese rack, 9 ft. 6 in. by 7 ft., 1 ft. 6 in. wide, 6 shelves, 4 rails each, and 6 uprights and bearers. One set of shelves, 8 ft. 8 in. long, 4 shelves grooved into ends. One shelf, 12 ft 6 in. long, 2 ft 4 in. wide. Lengthening and fixing bottle rack. One hop cupboard, 7 ft. 6 in. high, 4 ft. 4 in. by 2 ft. 6 in, with two doors. Re-fixing bacon cupboard, 8 ft. 6 in. by 6 ft., with new end. One set of shelves, 9 ft. by 5 ft., 4 in. wide, grooved into ends.

by 5 ft., 4 in. wide, grooved into ends,
OLD STORE ROOM—Converting to housekeeper's store, taking down
three sets of shelves, bacon cupboard, and salt racks.
Making and fixing sixteen partitions One cupboard, 7 ft.

DINING HALL, M.—Taking down five cupboards and plate racks from wards, and re-fixing in dining hall. Making and fixing casing to W. C., and partition, 5 ft. 6 in. by 2 ft. 2 in.

Two towel rollers, broom and mop rack.

Fixing three cupboards and making two stands, 7 ft 3 in. by 1 ft. 3 in. BASEMENT, M.-Making and fixing three door frames, 6 ft. 2 in by 3 ft 4 in., timber, $4\frac{1}{2}$ in. by 3 in., and fixing three panels into doors, for single rooms, fitting and hanging same. ER's Tools—Making one triangular level, four hand floats, three awks, and one tool box, 18 in. by 14 in., and

BRICKLAYER'S

No. 2, F.—Taking up floor and joists, 9 ft. by 7 ft. Making table table top for pattern, 6 ft. by 2 ft. 3 in., Dog kennel, 5 ft 6 in by 3 ft. and 3 ft.

,,

Clothes horse, 4 ft. 6 in. by 3 ft. 6 in.
Shed for mowing machine, 7 ft. by 4 ft., with roof for slates and door, 5 ft. by 4 ft. ,,

Cupboard for harness and fixing same in stable, 5 ft. long, 6 ft. 3 in. high by 1 ft. 8 in., with two ledge doors, and saddle 99

Taking up and re-fixing flooring for gas, in 1, 2, 3, and 4 M. W. Making and fixing two hand rails for stairs, 10 ft. long, $2\frac{1}{2}$ in, by $2\frac{1}{4}$ in NEEDLE ROOM—Taking down shelves and cupboards, 25 ft. long, taking out window and shoring up floor. Laying floor, 2 oak plates, 25 ft. long, 4 ft. by 2 in., 22 joists, 12 ft., $4\frac{1}{2}$ ft. by $2\frac{1}{2}$ in. Boarding, 25 ft. by 12 ft., 1 in. deal.

Making and fixing one large cupboard, 11 ft. 3 in. high, 8 ft. wide, 4 ft. deep, with five shelves, 8 ft. by 4 ft., with one partition, four panel doors, 6 ft 2 in by 3 ft. 10 in., and two panels, 4 ft. by 3 ft. 10 in, made to slide on brass wheels, match boarded back and sides, and moulding round front.

Altering and fixing one dwarf cupboard, 14 ft. by 2 ft., 3 ft. high, with shelves fixed on top, 5 ft. high. Making and fixing moulding

round window and shelves.

Making mould for bricklayer, 4 ft. by 3 ft. 11 in.

NEW FEMALE DINING HALL—Fixing two sets of casing to W C's. Cutting out hole in roof for sun light; altering two sets of shelves; taking down five plate racks, and refixing same, and one large cupboard. Making and fixing one broom rack. Making two stands, 7 ft. 3 in. by 1 ft. 3 in. Making and fixing two stands are represented by the little in door and 6 fixing two frames to ventilators, 2 ft. by $11\frac{1}{2}$ in. deep, and 6 in. deep.

Making one large table, 10 ft. long, 4 ft. wide, 2 ft. 6 in. high, 11 in. top. Making and fixing one dresser top, 15 ft. long, 2 ft. 6 in. wide, $1\frac{1}{2}$ in, with four legs and bearers and two counters, 6 ft 4 in long, 2 ft. 6 in wide, each with frames to rest on. Making and fixing one set of five shelves, 4 ft by 1 ft. 6 in., 7 ft. high, 1 in deal. Making and refixing cupboard, with four doors and five shelves, 6 ft. 6 in by 4 ft 3 in. and 1 ft 10 in.

Fixing joists and floor, 14 ft. long, 2 ft. 8 in. wide, lower engine house. Making and fixing one window frame for meat stores, 4 ft. 5 in. by 3 ft. $5\frac{1}{2}$ in.

THIRD STOREY, MALE W.—Making two sets frame work for bath, 7 ft. by 2 ft. 2 in., seven panels each side, and two taps 7 ft. 3 in.

Making and fixing cupboard in steward's store, 2 ft. 2 in. by 1 ft. 4 in., with two doors and shelves.

No. 6, M.—Making and fixing two sets casing for W. C., 6 ft. 6 in by 18 ft. and 8 in.

Making and fixing four hand rails, 10 ft. long 3 ft. by $2\frac{1}{2}$ in., oak

THIRD STOREY, M.—Making one top, with six holes, for washing basins, 10 ft. by 18 in, and one with four holes, 7 ft. long by 18 in.

Making and fixing broom rack, 5 ft. 4 in, and two sets shelves each 6 ft. 6 in. high by 7 ft. 7 in., with uprights and bearers, for No. 6, M., Clothes Store.
